

Cardboard Recycling Program

UAMS Property Services operates a cardboard recycling program on the campus. We have several collection bins on the campus at the following locations.

- [Distribution Center](#)
- [College of Public Health Dock](#)
- [Biomed Dock](#)
- [Center on Aging](#)
- [ACRC Dock](#)
- [Bookstore](#)

Property Services will collect cardboard from the cardboard recycling bins on a schedule based upon bin usage and capacity in each of the locations. Unscheduled collections will be made upon notification that collection is required.

Only cardboard is to be placed in the recycling bins. Cardboard boxes must be flattened. No garbage is to be placed into the cardboard recycling bins.

If bins are full between scheduled pick ups, please contact Property Services to empty the bin (296-1047).

Departments should ensure that vendors performing installations place cardboard in the local bins in accordance with this policy. The Policy is part of the UAMS Admin Guide (Section 5.4.06).
